MPC | 05/2019

Percentage:94.3%

Rishi High School | Warangal, Telangana

SSC | 08/2017

GPA:9.5

Skills

Frontend Technologies

- HTML,CSS,JavaScript
- ReactJS

Databases

- MySQL
- MongoDB

Backend Technologies

- JAVA, SpringBoot,JDBC(Servlets & JSP)

Cloud

- AWS Fundamentals

Personal Projects

E-Commerce

- I created this e-commerce project as an easy-to-use online store to give a smooth shopping experience. It uses technologies like Java, JSP, JavaScript, and jQuery, with a strong backend supported by WAMP server. This project shows my skills in full-stack development and modern web technologies.

Home Services

- The platform offers an easy-to-use interface built with HTML, CSS, Bootstrap, JavaScript, and jQuery. Users can quickly view and set service provider locations, book skilled workers such as electricians and plumbers, and leave feedback and ratings. Password encryption ensures security, and WAMP server supports efficient backend management.

Career Connect

- Career Connect transforms job searching with a modern, user-friendly platform. Users can easily apply for jobs, take exams, and receive notifications. The platform is built with HTML, CSS, Bootstrap, JavaScript, Spring Boot, and

Microservices, and is supported by WAMP server for a robust backend.

Online Doc Consultation

- E-Doc Consultation innovates online healthcare. With seamless functionality powered by JavaScript, a React frontend, Spring Boot backend, and MongoDB, users can effortlessly find doctors, book appointments, and receive prescriptions. An integrated pharmacy allows for convenient medication ordering with cash-on-delivery. The intuitive Bootstrap, HTML, CSS interface ensures user-friendly navigation.

Internships

Apex Software Solutions | Warangal, Telangana

Full Stack Developer | 09/2023 - 05/2024

- During my internship, I gained practical experience in core Java, JDBC, HTML, CSS, JavaScript, jQuery, MySQL, Spring Boot, React.js, and MongoDB.
- Working on various projects helped me improve my skills in both front-end and back-end development.
- Additionally, I learned the fundamentals of AWS, giving me insights into cloud-based application deployment and management. This comprehensive experience has equipped me with the expertise needed to succeed as a Full Stack Java Developer.
